

I listen to KLOVE and ask that you do not allow LPFM to take priority over FM translator service.

1. KLOVE provides 24 hour Christian music, news and events sponsored by our local churches and activities. I choose to listen to Christian music over any other type available.

2. Without KLOVE, families do not have a moral option to choose the music they want to hear. KLOVE often plays recordings made by listeners who share the effect this station has on their children and themselves.

3. This station provides listeners a chance to hear the gospel through music, stories and even how God is used in news events. I can't imagine not having the choice to listen to this station.

Please do not stop it.
Thank you, & God Bless!
